

EGAO KIDS MULTIVIT

Food supplement based on 9 vitamins supporting health and well-being of the youngest of the family.

From 3 years

Features

During the first years of a child's life there are several growth and developmental stages that require a higher nutritional and energy supply than other stages of life.

Egao Kids Multivit is a food supplement developed especially for children and designed to cover the vitamin needs that they may need in each process and thus complement a balanced diet and a healthy lifestyle.

Its formula contains 9 vitamins that, when combined with healthy eating habits, complement your child's diet, providing the following benefits:

- Vitamins A, C, D, B₆ y B₁₂ contribute to the normal function of the immune system.
- Vitamins C, B₆ y B₁₂, niacin and pantothenic acid contribute to the reduction of tiredness and fatigue.
- Vitamin D contributes to the maintenance and normal functioning of bones and muscles.

- Vitamin A contributes to the maintenance of a normal vision*.
- Thiamine contributes to the normal function of the heart.
- Vitamins B₆ and B₁₂ contribute to normal red blood cell formation.
- Vitamins C, B₆, B₁₂, thiamine and niacin contribute to normal functioning of the nervous system and normal psychological function.
- Pantothenic acid contributes to normal mental performance.

*in normal conditions.
